The zip codes in Douglaston, New York are 11362 and 11363. Douglaston, New York is also known as Little Neck and is a neighborhood in northeast Queens. According to Social Explorer's Profile on ZCTA5 11363, 11363 has an estimated population of 7424 people. On the other hand, 11362 has a population of 19,217 people. 11362 is not only bigger than 11363 but also occupies more people per square mile with 11363 at only 8,587.05 per square mile in contrast to 11362's 9,252.93 people per square mile. The median age

for Douglaston is around the middle age range, about 49-50, with both zip codes having the largest percentage of population by age being in the range of 50-59. The second largest occupant categorized by age is around 60-69, further implementing the demographics of this neighborhood leaned towards an older population. Adding on to demographics, 11363 and 11362 both have a majority of White and Asian population, although it has to be noted that 11363 has a greater White population at 49.41% in comparison to Asians at 34.6%. On the other hand, 11362 encompasses more Asians at 47.58% and White at 38.91%. The other notable group in the Race & Ethnicity dataset is the Hispanic population with 11363 holding 10.88% Hispanic and 11362 with 9.61%. In both neighborhoods, there is a majority of native-born families residing within, although the Foreign-born numbers should not be disregarded due to how high it is. 11362 leads with 40.48% foreign-born, and 11363 follows with 33.89%. A vast majority of these immigrants moved into Little Neck before 1990, and the number of move-ins has decreased every decade after. The education in Little Neck is also higher than most with above 90% having obtained education higher than High School. Little Necks' dropout rate is at 0%, so the kids that enter school generally complete their education smoothly. Poverty rates in Douglaston are interesting with how different 11363's Population Under 18's poverty percentage is in comparison to the Population 65 and Over. 11363 Under 18 has a shocking 15.58% Poverty rate which is a stark comparison to 65 and Over's 0.87%. 11362's numbers are more even with Under 18 being 10.87% and 65 and Over at 7.4%. Although the correlation between poverty rates and age ranges with fertility rate is not certain, it is astonishing how in 11363 there have been no women who gave birth between ages 15-44, with 10.43% of age ranges 45-50 giving birth. 11362's numbers are more evenly dispersed between age ranges 20-24, 30-34, 35-39, and 45-50. All of these numbers are sourced from Social Explorer's Profile of 11362 and 11363.
